The Court orders that the motion to compel defendant-appellant's production of the entire transcript of circuit court proceedings is DENIED without prejudice.

It is unclear from plaintiff-appellee's motion what, if any, transcripts were not ordered or have not already been produced and are part of the lower court record. In addition to the steno certificate dated August 17, 2007, ordering the September 9, 2005, transcript, this Court is also in receipt of a steno certificate dated August 14, 2007, ordering the transcripts from ten different hearing dates. Further, a review of the lower court docket entries shows that some of the transcripts plaintiff-appellee represents as having been omitted were indeed produced and filed with the circuit court previously.

It is not the responsibility of the Court of Appeals to search lower court records for missing transcripts. It is plaintiff-appellee's responsibility to accurately indicate in her motion which transcripts were not ordered or transcribed that should have been.
